Autotecnica Motori has decided to provide to the Teams an online tool to exchange information and files.

Teams folder

This is a download-only folder in which teams can find the latest information from Autotecnica, such as:

- Technical bulletins.
- Spare part list.
- Manuals.
- Sysma Projects.
- Software installers.

Password: provided by Autotecnica Motori writing an e-mail to track@autotecnicamotori.it

Data folder

In this folder teams are allowed to upload files that they need to share with Autotecnica.
In order to avoid confusion, we request that teams follow this procedure:

- Contact one of our engineers and explain the issue you are facing.
- If needed they will ask you to upload data acquisition files.
- Upload one single compressed file named: YMMDD_TEAMNAME.
- Upload only the lap in which you had the problem, not the complete session.
