2019 FIA Formula Regional European Championship

Bulletin – 02

In accordance with article 24 of sporting regulation, the tyres distribution and registration is set as follow:

Distribution

Distribution of tyres to all competitors shall be carried out under the supervision of the FREC technical delegate. Once distributed the tyres must always be visible inside the FREC paddock during the Event. In a case of force majeure, the stewards may alter this programme.

Before initial scrutineering, the FREC technical delegate will allocate dry and wet-weather tyres to each car.

A secure area for the storage of tyres during the Event will be provided by the tyre manufacturer and will be located in the paddock area. All dry-weather tyres allocated for use at an Event must be stored in this area during the times specified by the FREC technical delegate at the start of the Event. Competitors are not permitted to access to this secure storage area during the above specified times without the consent of the FIA F3 technical delegate.

Wheels removed from a car during qualifying practice or a race will be deemed to be in parc fermé and, unless the same wheels are used for a second time during the same qualifying practice or race, no work on the wheels is permitted (with the exception of pressure checks conducted by the team immediately after the wheels have been removed from the car). Under these circumstances tyre pressures may not be adjusted after such a pressure check.

With the exception of the wheels fitted to the car at the end of the qualifying practice or race, it is the responsibility of each team to take the wheels removed from their cars during the qualifying practice or

race to the parc fermé as soon as possible after the qualifying practice or race (where they will remain until the cars are released).

Registration

Tyre registration must be done fill in the online form at the following link:

<https://acifr.page.link/tires>

The form is active from Tuesday to the starting of the first free practice session. A receipt of the form registration in pdf format will be send by email.

Dr. Marco Ferrari

Aci Sport General Manager

Roberto De Felice
